Mustapha Abdulsalam

Frontend Developer · UI/UX Designer · Graphic Designer · Content Creator

Mid-Level Professional · Open to Opportunities

PROFESSIONAL SUMMARY

A passionate and versatile Mid-Level Frontend Developer and UI/UX Designer with hands-on experience building elegant digital products and scalable tech solutions. With a background spanning graphic design, content creation, and startup leadership, Mustapha bridges the gap between creative vision and technical execution. Currently driving innovation as Assistant CTO at Sardauna Tech Lab and Founder of Sabeer-Verse, he brings a rare combination of design sensibility, technical skill, and entrepreneurial mindset to every project.

WORK EXPERIENCE

Assistant Chief Technology Officer (Asst. CTO) — *Jan 2025 – Present*

Sardauna Tech Lab | Nigeria

- Co-lead technical strategy and product direction, ensuring alignment with organisational goals.
- Oversee frontend development workflows, design systems, and UI/UX standards across all products.
- Mentor junior developers and designers, fostering a culture of continuous improvement.
- Evaluate emerging technologies to maintain competitive advantage for the lab's products.

Founder & Lead Designer / Developer — *Jan 2024 – Present*

Sabeer-Verse | Nigeria (Remote)

- Founded and bootstrapped a creative technology startup focused on design-driven digital products.
- Lead end-to-end product development — from concept and UI/UX design to frontend implementation.
- Delivered digital solutions for clients across healthcare, tech, and lifestyle sectors.

Personal Relationship Manager — *Mar 2023 – Dec 2024*

Moniepoint MFB | Dutse, Jigawa State

- Managed a portfolio of personal and business clients, ensuring high satisfaction and retention.
- Provided tailored financial advisory services, identifying client needs and recommending products.
- Resolved complaints efficiently while consistently exceeding monthly acquisition targets.

PROJECTS

Medionix Healthcare OS — *Lead UI/UX Designer*

Designed the complete user interface and experience for a healthcare operating system aimed at streamlining patient management, clinical workflows, and administrative operations.

Tools: Figma · Magic Patterns · Canva

CERTIFICATIONS & COURSES

Nmap for Network Scanning — Certified Course — *2024*
Udemy · Network Security & Enumeration

Blockchain Technology — *2024*
BlockDAG · Blockchain Fundamentals & Decentralised Applications
